

Your trusted partner in sanitation, cleaning products, industrial products & supplies supported with customizable blending and packaging operations.

Our solutions focused supply chain network, customizable products and specialty blending coupled with automated packaging services and decades of experience across a wide array of industries enable American Sanitation Supplies to deliver solutions for all your needs in these trying times.

Products, Services & Solutions

It is not just our products that are unique, but our services and delivery methods are the best available in the industry today.

We're more than just a manufacturer and custom packager of products. We are an additional member of your team that's able to help you with challenges and create solutions.

Our deep experience of creating solutions from design to application, makes us uniquely equipped to handle the supply chain challenges of today.

At American Sanitation, we utilize our knowledge and experience to produce a wide variety of solutions for multiple industries and applications, and have developed a versatile portfolio of cleaning, disinfecting and industrial products to fit any application.

Cleaning & Disinfecting Products

We take pride in developing solutions for customer needs that not only disinfect hands and surfaces, but also provide another level of clean for your equipment, surfaces, facilities and employee working environments.

Whether your issues are mold, viral, bacterial, dirt, or grime related we have a set of solutions that will not only clean your facilities but leave them completely disinfected providing a safer working environment.

AmeriProtect

+ Industrial Grade Surface Protectant

AmeriProtect utilizes an EPA-registered, long-lasting surface coating that provides an invisible barrier to inhibit the growth of bacteria, fungi, mold, mildew and algae. This product with revolutionary coating technology has demonstrated to provide continuous protection, when used as directed, on a variety of surfaces for multiple industries and applications for longer term anti-microbial benefits.

AmeriClean

+ EPA Registered Disinfectant

AmeriClean is a professional-grade, all-natural, multi-purpose cleaner for all applications. Its unique technology, separates itself from traditional cleaners by utilizing its powerful cleaning properties to penetrate surfaces for a next level of clean. It produces results while being non-toxic and biodegradable.

DuraShield®

+ FDA Approved Sanitizing Hand Lotion

DuraShield is a patent pending non-alcohol based FDA approved sanitizing hand lotion with a long term anti-microbial product which sanitizes and leaves your hands moisturized and soft. The product leaves the hands silky smooth with extended protection against germs.

Hygea

+ FDA compliant Liquid Hand Sanitizer

Hygea is an FDA compliant liquid alcohol-based hand sanitizer for industrial or medical applications. It is proven to rapidly and effectively kill a wide array of potentially harmful microorganisms, meeting ASTM microbicidal efficacy standards and can be formulated with natural or multiple fragrances.

Hygea Gel

+ FDA compliant Gelled Hand Sanitizer

Hygea Gel is an FDA compliant gelled hand sanitizer for industrial and medical applications. Being alcohol-based, with hand soothing additives, it is known to rapidly and effectively kill a wide array of potentially harmful microorganisms, meeting ASTM microbicidal efficacy standards and can be formulated with natural or multiple fragrances.

Custom Blending & Packaging

Custom Solutions

American Sanitation has the capability to create custom blends for a wide array of specialty chemical products to achieve customized or specific formulations for any application or need.

These capabilities are complimented with American Sanitation's fully automated filling and packaging equipment and services to produce ready to use products in multiple package sizes and configurations for any end use application with the ability for private label solutions.

For any inquires, product needs, custom sanitation solutions, packaging or general information, please don't hesitate to reach out to our team.
